

Corona Virus

Bapuji : Paramshanti!

China's intentions were always to cause troubles to others. So this type of chemical is the biggest weapon. Dont you remember something similar had happened many years ago in Surat?

It was the plague virus. It was called as thw Neumonic plague at that time. We may say it was of a different type of plague not the plague that would occur in the olden days. In the case of the Surat plague,

China had despatched the plague virus to Pakistan and Pakistan in turn handed over the virus to a terrorist. The plague virus packaged in a small bomb format was then smuggled inside Surat, India and was exploded there. If a virus is packed in a bomb feature and exploded at a desired place, it results in destruction of the place through the virus, results are almost same as a normal bomb explosion. A virus bomb!

Anant : so we can say that the intention of the Chinese was evil. They had only developed this virus to destroy other nations?

Bapuji : China was always an atheist nation. See how it has come to possess Tibet as it's own. Now see what's happening in Hong Kong. China has always followed a policy of expansion of its boundaries on all sides. Many countries in the world follow such a policy of expansion of their territories.

China also has followed such a policy of expanding its territory on all directions. Initially it begins at a slow pace by giving money to anti nationals and moving inside a foreign country at their borders. Inch by inch continuously taking over the other land and finally consuming just like the dragon. Why is China called a dragon? It's just like a crocodile... There is a huge laboratory over there in China where they it developed the virus, to create a chemical weapon. The Corona virus strain later exploded (leaked) during the process. Later, the situation became out of control and so the Corona virus transmitted to the local people in China.

Anant : it has been explained that the Corona virus has spread through bats....

Bapuji : Yes but what does one mean by this? Any virus carries in itself the mentality or the biological characteristics of that animal , or living being from which it has come. In this case, the virus has originated from bats and it enters the bodies of similar animals or beings with matching qualities. The virus spreads throughout with great speed in animals, beings etc.. It in turn infects a person who would eat the meat of the infected animal. Thus it's spreads in humans. This virus is most dangerous and will continue spreading throughout the world. For the children of the infinite who remain in soul conscious & light body, the aura will be at a high level of light. Such Behad souls will not be affected by any virus.

In all directions Behad souls will spread their divine aura along with paramshanti vibrations therefore, the virus will not be able to pierce through such strong light aura and enter the physical body of Behad souls. We may say that no negative vibrations etc of anyone can enter inside the aura of a soul having white or golden aura.

Anant : so now what will happen to China ?

Bapuji : Due to the contagious virus, present conditions within China is very bad and will worsen in the immediate future. For now, though China is trying it's best to resolve this corona virus epidemic by trying to create an anti-virus for protection against its spread.

However, it will not be that easy to create one as such things take time and by nature complex.

It will be extremely difficult to develop a proper vaccine. The Corona virus is very dangerous and was designed for destruction of the world. It is even possible that the virus was intended to destroy India but in this process China itself is now devastated.

China considers our India as it's biggest enemy amongst all countries in this world which is why the Chinese army were put up at Doklam for the past 2 years. It was only due to Modi and his stiff opposition to this threat to India that he also retaliated strongly by stationing a military camp at Doklam. China would have even swallowed Bhutan. So this is a huge dragon that would swallow, smaller countries that are close by.

Therefore, it is but natural that whosoever constantly thinks about a thing it will surely manifest as a consequence. China was experimenting on the virus to be used on India. If this would have been a success, it would have, in an indirect way sent through Pakistan the virus to India just as China had done in the past when it harmed India through the pneumonic plague in Surat.

From that point of time onwards China started to research on viruses for which no vaccine would be available easily and so it developed such a deadly virus.

However, much to its disadvantage the virus happened to leak and implode on the Chinese

themselves. The chemicals with which the virus has been developed with say two or three or even more materials will now start multiplying itself and increase in the environment, causing huge loss to China.

This is a consequence of natural law that 'He who digs up a pit for others will fall in it himself.'

China has fallen in the very same pit that it had dug up for India! It had been making such a chemical weapon for the purpose of harming India but to its luck it has fallen miserably. Not only China, even the whole world has to suffer the punishment of this dangerous virus. For example, there will be an outbreak of Corona virus in America, India to some extent. Yet, in India the impact will be minimum since many of the people of Bharat are vegetarians and also because vegetarian people by nature, are good hearted. They are religious and devoted to God therefore, such people will not be affected.

Anant : they (vegetarians), do not have any negative complexes such as inferiority etc

Bapuji : yes negative attitudes, complexes are common in non-vegetarians. They usually are aggressive and violent in their behaviour towards others, typical traits to cheat, violence and usually are corrupt. Such people are full of negativity in their mind and body and but naturally the virus will infect whoever spreads negativity. Thus such a negative virus will "catch" only those who are negative by nature.

People who are positive by nature and religiously devoted to God, helpful towards others - Satopradhan (most pure) souls, ones who care for others in their troubles for such souls this virus will not be harmful.

Such souls will be protected against any negative forces. These are my own observations. Last night I spent a lot of time in observing China and the effects of the virus.

Anant : as of date I think 250 - 300 people have died due to the Corona virus?

Bapuji : yes infact more people have died in China but that has not been revealed on the records. Many number of people have died. Moreover, the space (sky) above China is full of negative souls hovering above. Now China is an atheist country and the negative souls of such a country that doesn't believe in God wish to take as many souls along with them in their own negative groups. These evil souls want to increase their strength in numbers and so want many people in China to die of this virus as soon. So the epidemic will definitely spread in all directions. This is the punishment for the actions of any negative country, whoever is against India.

Bharat means 'that which was from the beginning' or 'aadi' will exist till the end or 'anth'

By Aadi we mean when Brahma's day started then Bharat was existent. 50 years past meaning 50 years of Brahma's period has elapsed. One year of Brahma can be calculated as 31 trillion, 10 billion, 40 crore years. Therefore, whatever has existed from the beginning of time will exist at the end of time also. The rest will just appear and disappear during periods of time. That is why we have talked about the Aadi Sanatan Devi Devta dharam or the path of the ancient Gods & Goddesses who have originated from G2 or Great Great Universe of our multiverse.

Anant : how does a soul now protect itself from the virus?

Bapuji : a soul which in its capacity high quality, such a soul must emerge in its own self Satopradhan (highest form of purity & goodness). Such high quality souls must try to be in soul conscious state, emerge from within their own soul power and keep their auras clean and sealed.

No virus , germs etc can enter a healthy aura and will be destroyed immediately if they enter a spiritual aura.

I have already said in my previous videos that even weak souls upon coming in contact with your aura will get mukti or liberation i.e if one's aura is powerful enough. For example, if we have an aura of paramlight quality of say one Kala (Kala = celestial degree) then, a weak soul

having a Kala (soul power) of 0.001 which would be of a ghost etc., will be diluted in our powerful aura as soon as they come inside our aura.

This is the natural law of Paramlight, an example of how divine paramlight can absorb any another light.

Anant : So Bapuji, with the help of Paramlight can one destroy the Corona virus?

Bapuji : Yes definitely one can but for the present let these evil ones get some punishment for their sinful deeds. We have stopped the third world war from occurring. Do you understand? To stop the third world war I have been spreading Paramshanti vibrations. However, at present over China there are trillions of negative souls, ghosts who are in various groups waiting to harm. These negative ghouls are atheist souls. Let these evil souls do whatever they wish to do.

As of date, China's biggest enemy is India and China wishes to destroy India at all costs. This fact the people of India do not realise, unfortunately. Hindus are not united and so do not know about their ancient origins that, they belong to the Aadi Sanatan Devi Devta dharam. The Hindus of Bharat do not realise their religion is very very ancient and that they are old souls. The Hindus of the present must know that they are not of this earth, their true origins are from Great Great Universe (G2). Sanatan dharm has originated from where that today's Hindu should know. Hindus you are not from Earth but you have come from the Great Great Universe and that is why all Hindus must now be more aware and conscious of this fact. Hindus must now be as one force and be united. It is the need of the hour.

All these varied religions, religious mutts, different ashrams and sects (sampraday) monasteries etc sampraday all these belong originally to Sanatan Dharm which is the oldest amongst these all. The 33 crore and 33 koti (types) of gods and goddesses belong to Sanatan Dharm. These souls are very powerful and even the souls created by the 33 crore gods and goddesses, further souls also have lot of soul power in them. So now it is time, these souls woke up from their ignorance and realise their own power. All Hindus must necessarily become united in these times.

Anant : Okay Bapuji now we must send out positive intentions that the virus must not create much harm?

Bapuji : means it should not come to India? For this we must cordon off India from all four sides with positive, firm intentions that the virus must not enter Bharat. For the rest of the world, there are many number of third class quality souls maybe in Europe, America or China. Infact, Europe is worse than China. They (European countries), always interfere with other democracies. India also was harmed a lot. See how the English people had ruled all over the world and looted away all riches?

About the theory of karma, now it will act upon the ones for their deeds. The theory of karma will definitely pursue the English also. One day or the other they will get retribution for their wicked acts. Let it be the Englishman or the Muslims the theory of karma will not leave anybody. So let them be ready to face the punishments that they will have to face soon. We will protect and save only India by cordoning the land from all negativity by filling it with Paramlight.

However even in India there are quite a number of corrupt people in power who I wish should be punished for their misdeeds a little because they are corrupt in their actions. Therefore, even if we do cordon off India, then also the virus will infect only those who are corrupt, those souls

who have ran away after looting away our country, those who are false and cheat

the Hindus. Traitors who despite being a Hindu are disloyal to the Hindu people, such people will be attacked by the virus. So let the virus come into India. Atheists will be infected with this virus. Those who are staunch Hindus and truly believe themselves to be a Hindu and belonging to Sanatan Dharm such people will not be harmed by the virus.

Anant : Alright Bapuji. What an excellent discourse you have given!

Paramshanti!

Bapuji :. Paramshanti!
